

Black Lab[®]
Custom Toll Blending

Custom Toll Blending

Collaborate with the cost-efficient, time-efficient toll blending company

When you collaborate with us, you can count on cost-efficient, time-efficient toll blending of dry granular products. We produce your proprietary formula—accurately, confidentially, quickly—with blending consistency from the first bag to the last bag. We know that because we bag from the mixer not from the hopper. We're turning toll blending into a science.

Choose a trusted company

Whether enhancing your private label products or collaborating with you on a customized formula, we're the trusted resource for the most basic to the most highly complex job. As part of Covia, we work with the R&D team to continually enhance our processes to create even greater toll blending value for you. Grow with us.

600+
RAW MATERIALS

Black Lab®
Custom Toll Blending

Leverage strategically located plants

Each of our locations near Chicago, Cleveland, and Houston is serviced by transportation lines that efficiently move raw materials and components into our facilities. Our capital equipment investment ensures the right blend is shipped rapidly and reliably throughout North America. We offer containerized load and palletized shipments to any market in the world.

Maximize shipping with our custom packaging solutions

Our customized packaging solutions—filled with your proprietary blends—maximize shipping with the right amount of material at the right time. You can rely on Black Lab for packaging solutions, from large volume units to small custom packages. We deliver bulk material in supersacks and totes, and offer high-volume bagging capabilities. Our individual product packaging options include a wide variety of bags, pails, boxes, and drums. We also provide labeling and package design assistance.

“The stocking program and direct ship option have been essential to our growth and our success.”

Black Lab customer

“Black Lab is a vital part of our business due to communications and logistics and shipping support.”
